About us

Maxhill is an imports and distribution organization, and we have been in business for more than two decades. We have a wide range of panel products in our product basket, and we are always on the lookout for new products to complement our current offerings.

Over the years, our dedication to quality and customer satisfaction has been the cornerstone of our business. We take pride in the strong partnerships we have forged with our suppliers, ensuring that we can always offer a wide range of high-quality panel products to meet the diverse needs of our customers.

As we look towards the future, innovation and growth are at the forefront of our minds. We are constantly exploring new opportunities and trends in the market to bring fresh and exciting products to our customers. Our commitment to excellence drives us to continually improve and expand our product lines, ensuring that we can provide the best solutions for all our customers needs. Additionally, we are also AEO - T2 certified which is the highest recognition by the customs authority for a company which shows our dedication to ensuring quality procedures.

At the heart of our business is a passion for delivering value and building lasting relationships. We strive to be more than just a supplier - we aim to be a trusted partner that our customers can rely on for all their panel product needs. With our experience, knowledge, and dedication, we are confident in our ability to continue serving our customers well into the future.

Mixed Hardwood Core
100% eucalyptus

PACKING PLYWOOD

COMMERCIAL PLYWOOD

FINGERJOINT BOARDS

FLEXIBLE PLYWOOD

Hardwood / Falcatta / Gurjan

SOFT BOARDS

PVC FOAM BOARDS

ORIENTED STRAND BOARDS (OSB)

PREMIUM QUALITY PVC FOAM BOARDS

Poly Vinyl Chloride (PVC) boards are made from plastic composite. PVC is a cost-effective material that provides high strength and durability. It is an ideal material for moisture rich areas because of its weather and age resistant properties. It can be shaped and painted easily based on the application.

MAX PANELS

High screw
and nail
holding
properties

Weather
and aging
resistant

Easy to use
and install

100% termite
and pest proof

100%
Waterproof
and
eco- friendly

Fire retardant

Anti Fungal
Anti Bacterial

Ideal for
CNC cutting
and
paneling

APPLICATIONS

- ◆ Furniture, doors
- ◆ Home interiors
- ◆ Car, bus or train ceiling
- ◆ Construction
- ◆ Transportation
- ◆ Advertising, signage
- ◆ Building materials
- ◆ Interior and exterior wall panelling

ORIENTED STRAND BOARDS - OSB

Oriented Strand Board commonly called OSB is an engineered wood product made from strands of wood that are oriented in specific directions and bonded together with adhesives. The product has good strength, versatility, and cost- effectiveness.

APPLICATIONS

- ◆ Construction
- ◆ Furniture
- ◆ Cabinetry
- ◆ Packaging
- ◆ Interior applications

COMMERCIAL PLYWOOD

Commercial plywood is the standard form of plywood that is widely used. It is quite affordable and is made of veneers or slices of wood which are then glued together under high pressure.

U S E S

- Home interiors
- Furniture
- Cabinetry
- Flooring
- Ceilings

PACKING PLYWOOD

Packing plywood is a type of plywood that is essentially used for packing applications as the name suggests. It helps in protecting goods during transportation and its cost-effective nature makes it an ideal product.

Applications

- **Pallets**
- **Packaging**
- **Shelves for warehouses**
- **Crates and boxes for goods**
- **Sofa frame**
- **Lining inside of a container**

CALIBRATED PLYWOOD

Calibrated plywood is a type of plywood that offers uniform thickness and evenness due to the way it is constructed. It is made from multiple press technology which makes it much smoother and even than regular plywood.

APPLICATIONS

- **Modular furniture**
- **Modular kitchens**
- **Wooden shutters**
- **Wooden flooring**

FLEXIBLE PLYWOOD

Flexible plywood is a type of plywood that has unique bending properties. This enables the wood to bend without breaking and is widely used for curved surfaces.

APPLICATIONS

- **Furniture**
- **Sofas**
- **Doors**
- **Staircase**
- **Benches**
- **Rocking chairs**
- **Interiors**

TYPES

- **Malaysian Hardwood Flexible Plywood**
- **Indonesian Flexible Plywood**
- **Gurjan Flexible Plywood**

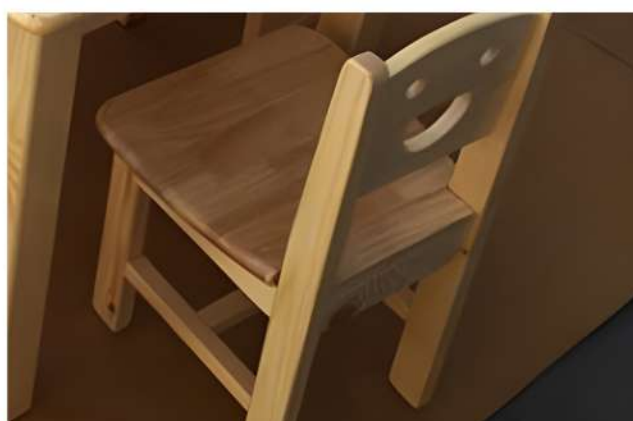

FINGERJOINT BOARDS

Finger joint boards are made by joining interlocking panels that are glued together and sanded to give it a smooth texture. The structure of the board gives it great stability and a unique looking design too.

APPLICATIONS

- **Furniture** • **Mouldings**
- **Doors** • **Flooring**
- **Decorative panels**
- **Gift items**

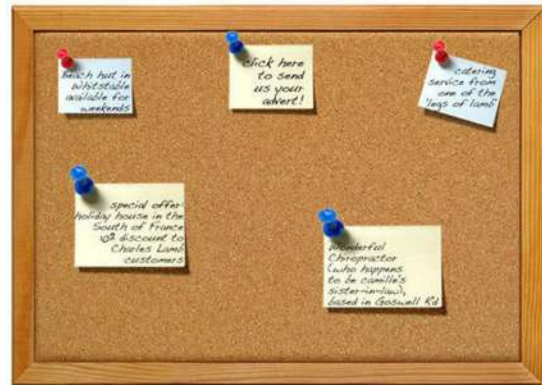

SOFT BOARDS

Soft board is made of wood fibres, and it is a soft, light coloured and light weight material. It is known for its excellent sound absorbing properties and insulating properties as well.

APPLICATIONS

- Acoustic boards
- Pin boards
- Auditoriums and studios (sound absorption)

MDF / HDF BOARDS

Medium density fibreboard (MDF) is an engineered wood- based sheet material made by bonding together wood fibres with a synthetic resin adhesive. The product is extremely versatile and can be engineered in many grades based on the strength of the product and its applications.

APPLICATIONS

- Furniture
- Doors and door frames
- Flooring
- Laser cutting and routing
- Engraving
- Gift items, toys and wedding cards
- Speaker boxes
- Handicrafts
- Decorative projects
- Cake base
- Textile packaging material
- Packaging

IMPORTED WHITISH MDF

Whitish MDF Boards have a pine like colour. They are ideal for applications such as laser cutting and routing

APPLICATIONS

- Laser cutting and routing
- Engraving
- Gift items, toys and wedding cards
- Handicrafts
- Decorative projects
- Cake base
